

As a user I want to complete an application online so that I can enroll into a program quickly

As a user I want to learn details about a specific program so that I can determine my level of interest

As a user I want to easily navigate between programs so that I don't have to click the back button multiple times until I reach the list of programs

As a user I want to find a campus using my address to identify the campuses closest to me for easy commuting

As a user I want to find a campus near me with the program I am interested in so that it is an easy, short commute

As a user I want to find information quickly and easily so that I can enroll
